Introduction

This update to the Windows version of the RFMS Business Management System includes many new features and enhancements. The update also includes many “behind the scenes” changes that increase processing speed and other performance-related functions. This document explains only the new features contained in this update.

For all alterations, see the release notes on the download web page or [Release Notes – RFMS Help Desk \(zendesk.com\)](#)

The same documentation is included in the online help system and can be accessed by pressing the F1 button at any RFMS screen. If something is on the screen you either do not recognize or understand, check this document, refer to the Help Files by pressing F1 or go to <https://rfmsinc.zendesk.com>

Next

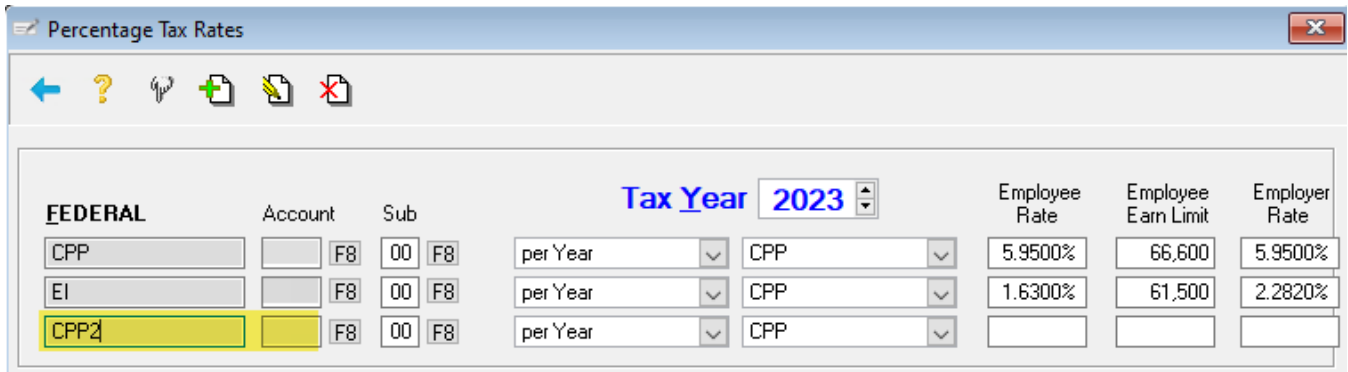

Version 23.1.0.36288 is required for using the RFMS Next Online Software.

Canadian Payroll

In Version 23.1.0.36288, Canadian RFMS users will find a new, one-time message when opening Human Resources regarding the new percentage tax rate that has been added to the system to accommodate CPP2:

Go to Human Resources > File Percentage Tax Rates to add a new (not duplicate) account code:

NOTE: While this is listed in your Percentage Tax Tables with the tax year listed as 2023, this information will not be used until processing payroll for tax year 2024.
