EXISTING CCA PRICING AND TAGGING NOT WORKING12

1. Obtain the latest .net Update by one of the below

- a. Microsoft Update Center
Go to Microsoft Windows Updates and perform a custom scan. To do this go to www.update.microsoft.com and click custom. Then once done choose Security and Software and check for any .net updates. Select and choose install.
- b. Google Search for .net 3.51
Go to www.google.com and type in .net 3.51 download and select "search". Go to the link from Microsoft and follow prompts.
- c. If running Windows 7 or Server 2008, go to Control Panel – Windows Update and obtain

Note: *This will need to be done on each workstation that will be accessing the Pricing and Tagging Program. At the end of the update you may be required to reboot. Do so and then rescan to make sure no more updates for .net.*

Note: *If you have any concerns about doing this update, Please consult with your Local IT Professional*

2. Ensure that the latest RFMS Update is installed. ([See SQL RFMS - RFMS Update](#))

Workstation Components

Note: Make sure that you are on the latest Release of RFMS.

1. To download the CCA Workstation Components, go to www.rfms.com

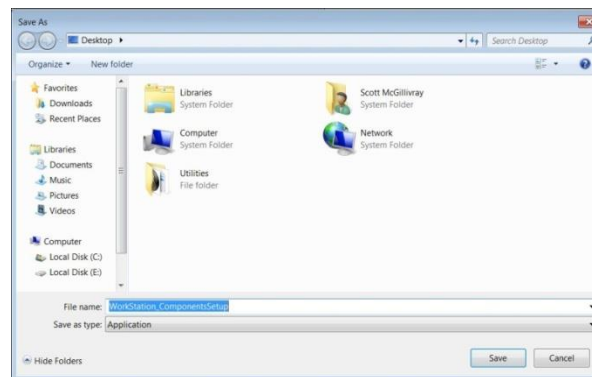

2. Once at the RFMS Website, click on “Program Updates”. A screen like below will be shown. Here you will need to login with your RFMS Customer Account Information. If you are unsure of this, contact the RFMS Business Office to obtain this information.

3. After successfully logging into the RFMS Website, Find the RFMS Workstation Components and click on “Download”

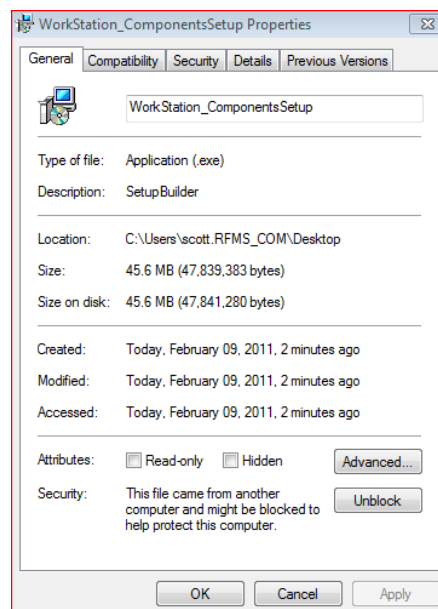

4. On this screen, select “Save” instead of “Run”

5. A screen like below will be shown. Browse to the “Desktop” and hit “Save”. This will save the RFMS Update file to the Desktop of this PC.

6. Right click on the Workstation ComponentsSetup.exe file and go to properties. If a screen like below is shown, click on the “Unblock” and hit ok

Note: Once the file is on the desktop, make sure that all RFMS Modules are closed on this workstation.

Note: This will need to be done on each workstation that will be accessing the Pricing and Tagging Program

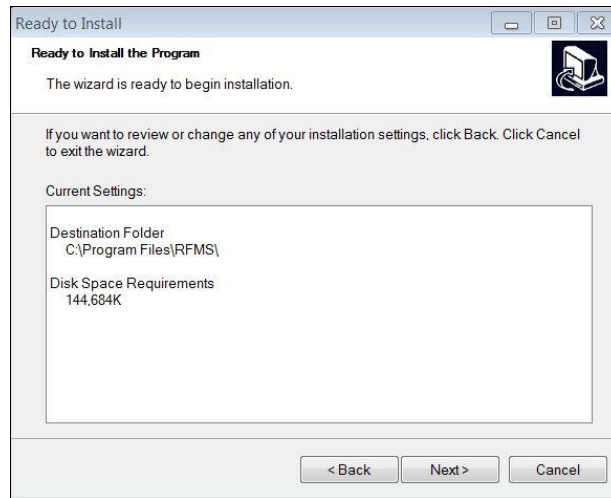

7. Double click on the WorkStation_ComponentsSetup.exe file on the desktop to install, hit "Next".

8. You will see a License Agreement, hit "Accept" and "Next"

9. This is the confirmation screen. Notice that this is installing to the Workstations C Drive, Hit “Next”

10. Click Finish when this is completed and proceed to the “CCA Pricing and Tagging Program Section”

CCA Pricing and Tagging Installation

Note: Make sure that you are on the latest Release of RFMS.

1. To download the CCA Pricing and Tagging Program, go to www.rfms.com

2. Once at the RFMS Website, click on "Program Updates". A screen like below will be shown. Here you will need to login with your RFMS Customer Account Information. If you are unsure of this, contact the RFMS Business Office to obtain this information.

3. After successfully logging into the RFMS Website, Find the CCA Pricing and Tagging Program and click on "Download"

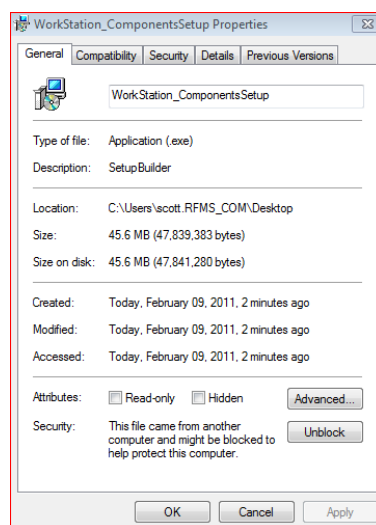

- On this screen, select “Save” instead of “Run”.

- A screen like below will be shown. Browse to the “Desktop” and hit “Save”. This will save the RFMS Update file to the Desktop of this PC.

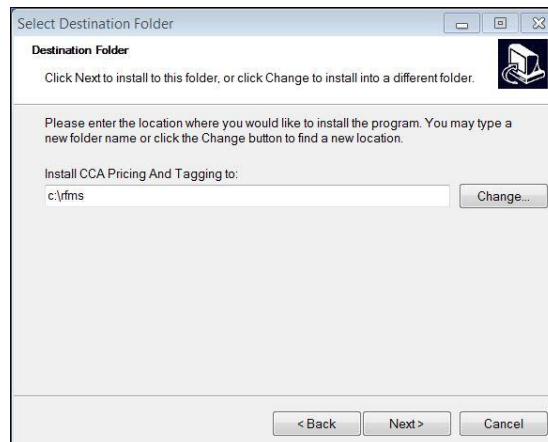

- Right click on the CCA_Pricing_Tagging.exe file and go to properties. If a screen like below is shown, click on the “Unblock” and hit ok

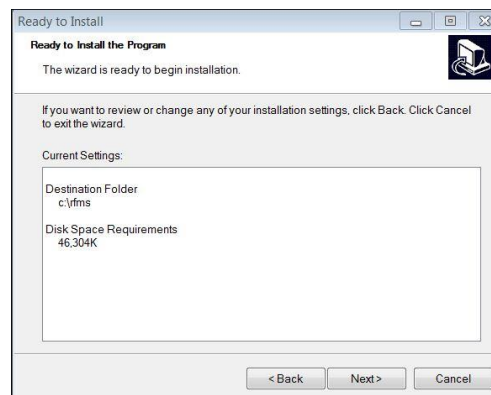

7. Double click on the CCA_Pricing_and_Tagging.exe on the desktop to install, hit “Next”.

8. By default, the installation will select C:\rfms as the installation folder. If you have installed RFMS to a different location, simply select the “Change...” button and browse to another location or type in the location and select “next”.

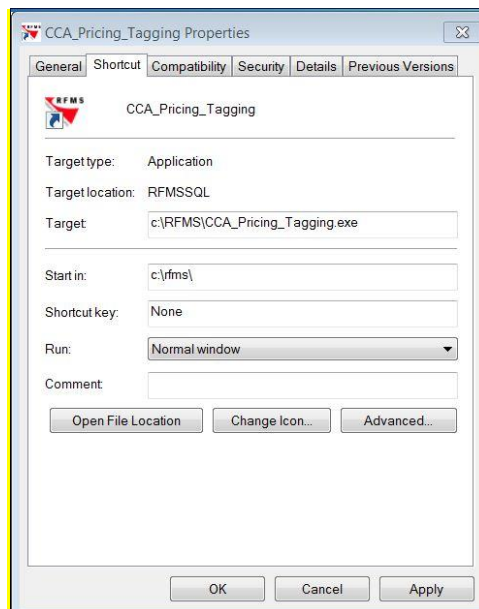

9. This is the confirmation screen, hit “Next”

CCA Pricing and Tagging Icon Creation

1. Right click on the RFMS Navigator Icon on the Desktop
2. Go to Properties
3. Click on View Target Folder or Browse Target Folder
4. Find the CCA_Pricing_Tagging.exe file and right click on the file. Select Copy
Note: Nothing visibly happens when you select copy
5. Right click on the Desktop and select "Paste Shortcut"
6. Right click on the newly created icon and go to Rename and Give a label of CCA Pricing and Tagging
7. Right click on the CCA Pricing and Tagging Icon and go to Properties, make sure the "Start In" line is not blank. It should be very similar to the "Target" line.

Note: *If you had pricing and tagging installed and workstation components installed and not working, do the following:*

1. Go to Control Panel – Add/Remove Programs or Control Panel – Programs and Features. Remove the Crystal Reports Basic Runtime for Visual Studio Program. Make sure you are logged in as an Account with Administrator Rights.

2. Next go to Start and Run. Type in c:\program files\rfms and hit enter. If the following is listed, double click on this to remove.

3. Once all of this is done, proceed to the Workstation Components Section
4. After this is done, try the Pricing and Tagging Program. If errors still occur, Proceed to the Pricing and Tagging Section
