Paperless Integration	3
E-Commerce	3

Introduction

This update to the Windows version of the RFMS Business Management System includes many new features and enhancements. The update also includes many “behind the scenes” changes that increase processing speed and other performance-related functions. This document explains only the new features contained in this update.

For alterations, see the release notes on the download web page or [Release Notes – Help Desk \(Zendesk.com\)](#)

RFMS Core

RFMS Core Program Suite For Sql

To see what you may have missed in previous updates please see the article [Update Documents](#) on our help site.

For directions on loading updates to the RFMS software please see the article [RFMS Program Update Instruction Document](#).

The same document is included in the online help system and can be accessed by pressing the F1 key while in any screen of RFMS. If something is on the screen that you either do not recognize or understand, check this document, refer to the Help Files by pressing F1, or go to <https://rfmsinc.zendesk.com/hc/en-us>.

Feature Updates

Next

- Version 24.3 is required for using the RFMS NEXT Online Software version 1.6.

Human Resources

- State Taxes for Kansas updated to 2024 values.
- State Taxes for Arkansas updated to 2024 values.
- State Taxes for Georgia updated to 2024 values.

Accounting

- Ability to post-date Accounts Payable (AP) checks into future months seamlessly.
- Ability to post Bank Charges, Deposits, Checks, and Transfers into future months without locking the register.
 - Banking and Reconciliation screens will list these transfers as “TX IN” and “TX OUT”.
- Out-of-period postings will appear according to their respective month and date.
- Multiple Online Payment process via Flagged Payables no longer requires an Online Transfer Account.

Paperless Integration

- Delete button available to remove attachments that have been added via Paperless.

E-Commerce

- Manual matching will now be rounded to four decimal places.
