Introduction

This update to the Windows version of the RFMS Business Management System includes many new features and enhancements. The update also includes many “behind the scenes” changes that increase processing speed and other performance-related functions. This document explains only the new features contained in this update.

For all alterations, see the release notes on the download web page or [Release Notes – RFMS Help Desk \(zendesk.com\)](#)

RFMS Core

RFMS Core Program Suite For Sql
